

## 2023 Seattle Boat Show Seminars Announced: Focus on Technology and Innovation

**SEATTLE — December 9, 2022 —** The [Seattle Boat Show](#), the largest on the West Coast, attracts boaters from all across the country and Canada who are in the market for a new boat or want to shop for the latest in accessories and technology. However, as big a draw for many attendees is the extensive line up of boating, fishing and Boat Show U seminars. 2023 will be no different. There will be 86 seminars, covering everything from anchoring techniques to diesel engine essentials to downrigger fishing for salmon in Puget Sound to preparing for offshore cruising. Additionally, 25% of this year's seminars are new and focusing on technology and innovation.

The boating and fishing seminars can be attended in person, and, with a special Seminar Package ticket, viewable online for three months post show. Boat Show U seminars are available in person and online for those who purchase a Seminar Package ticket. The special \$119 seminar ticket includes: access to all Boat Show U webinars (online and in person); Waggoner 2023 Cruising Guide (\$45 value); and a multi-day ticket good for all nine days of the show (\$40 value).

The show, with two locations – indoors at Lumen Field and on the water at the Port of Seattle's Bell Harbor Marina – runs Friday, Feb. 3 through Saturday, Feb. 11 2022.

### A selection of new seminars includes:

- Electric & Hybrid Propulsion Systems
- How to Work Re'BOAT'ly: Advanced Internet for Entrepreneurs, Remote Workers & Digital Nomads
- Understanding Water Maker Technology: Water Makers 101
- 20 Favorite Boating Safety Innovations
- Green Technology is a Game Changer: Sailing Offshore With & the Coho Ho Ho
- All you need to know about "Drop-In" lithium batteries
- Everything you Need to Know About Starlink for Boats
- Retrofitting Your Boat: Considerations for green technology including solar, batteries
- Essential Boating Gear You Don't Know You Need
- Using Marine Electronics to Target Trophy Fish in the Pacific Northwest

## **Boat Show U**

There will be 18 Boat Show U webinars offered throughout the nine days of the show - in person and streamed online. The webinars can be attended live in person with seating limited to the first 45 people.

Highlights include:

- Nigel Calder in two all-day sessions on electrical systems and diesel engines, including the latest technology in power and batteries
- John Neal on boat selection and equipment for long distance cruising whether it is up the Inside Passage to Alaska or crossing oceans
- Doug Miller on the latest technology for communications while out cruising including Starlink satellite connectivity for fast internet onboard
- Daniel Joram presenting the latest updates and new software for navigation and trip planning
- Mark Bunzel covering the latest apps for pulling weather information from the internet and interpreting it.
- Leonard and Lorena Landon on cruising Southeast Alaska.
